U.V.I Resistant treatment
Heat sealed Seams

COLORS

Ready stock of **BLUE, YELLOW, ORANGE, WHITE, SILVER.**
Other Colors can be manufactured on request.

Ready made sizes available

12' x 9' | 15' x 12' | 18' x 12' | 18' x 15' | 24' x 18' | 30' x 18' | 30' x 27' | 40' x 30' | 60' x 40'

Applications

Customised Sizes & Color can be manufactured and delivered in 1 Day.

General Cover | Tent Fly | Car Cover | Timber Cover | Machine Cover Canopy | Camping | Ground Sheet
Windbreak | Privacy Wall | Picnic Mat | Roof Rack | Protector | Dust Sheet | Boat Cover | Pool Cover | Etc.

POND LINERS

We offer a line of engineered multi-layered geomembranes used for water retention applications. Topline™ liners offer an exceptionally high hydrostatic resistance to hold millions of liters of water. The core woven fabric offers high tensile and tear strength combined with outstanding dimensional stability. Topline™ geomembrane liners are stabilized with special UV stabilizers and antioxidants designed to be used for an extended long time exposure water retention applications. They have excellent flexibility, outstanding durability, stress cracking resistance along with lightweight construction provides an excellent performance in all climates and environmental conditions.

Nylon / Polyester Tarpaulins

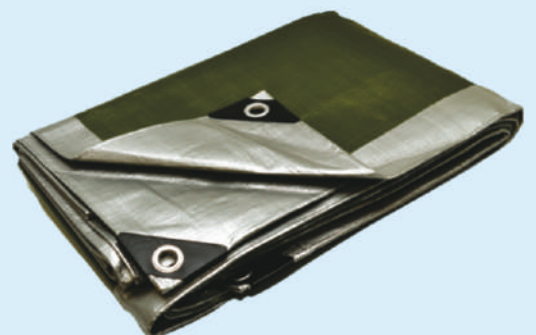

We offers a wide range of fabrics from 350 gsm to 1500 gsm in coating thickness from 0.3 mm to 1.5 mm over 100 attractive shades. The coated fabrics are available in a wide range of colors and as well as double sided or single side coated as desired by customers. We also offer high UV stability and flame retardant fabrics. The company has the capability to match exact shade requirements of the customers.

Applications

Tarpaulins | Hanger Covers | Awnings | Pitch Covers | Aqua Barrier | Ducting Fabrics
| Bio-gas Bags | Pond Liners | Container Cover | Upholstery Applications

Features

Waterproofing | Breaking Strength | Tear Strength | Flame Resistance | UV Stability

AIR BUBBLE FILMS & STRETCH WRAP CATALOGUE

LESPACK

**Sustainable Packaging
Made Easy**

AIR BUBBLE FILMS

AIR BUBBLE ROLLS

Bubble rolls are available in various bubble diameters and in different qualities and widths. Working with rolls gives you a great versatility and efficiency. Rolls are easy to handle due to their light weight. We are one of the few manufacturers to make up to 2 meter width.

Thicknesses: 35 gauge up to 600 gauge

Widths: 250mm up to 2000mm

Length: 50 m up to 200 m

AIR BUBBLE BAGS

Bubble Bags are used to protect all kinds of products, big or small. Our bags can be made in different sizes, depending on your needs. Bubble Bags are mainly used as shock-absorbent packaging in transport or storage.

Our Bubble Bags are available in various bubble diameters and in different qualities. These bags are also available in antistatic bubble, especially developed for electronic products.

INSULATION WRAPS

We also manufacture Insulation Bubble that is a lightweight, easy-to-use thermal insulating material that protects products from dramatic fluctuations in temperature.

They are also used as an underlay in metallic roofs to cut down the temperature

STRETCH WRAP FILM

MANUAL STRETCH FILM

These films are very versatile since they can be applied manually. They are highly elastic plastic films used to bind items together and secure loads on pallets for storage and transport. It provides stability, and protection from dust, dirt, and moisture without requiring heat

Thicknesses: 15microns to 50 microns

Widths: 100mm to 1000mm

Film Types: Regular, Anti Static, Corrosion Inhibitor

MACHINE GRADE FILM

Designed for use with semi-automatic and automatic stretch wrapping machines, this type is used in high-volume industrial operations and offers consistent, efficient application.

COLOURED FILMS

We also make coloured stretch films for various purposes. The films can be made in any colour provided the MOQ is met.

CUSTOMISED PACKAGING SOLUTIONS

MACHINE COVERS

We also make a wide range of 3 Dimensional covers used in Industrial Packaging and Logistics. These covers are typically 'Made to Order' with quick turnaround time. These covers are Reusable, Recyclable and help to reduce your overall packaging costs.

FLOOR PROTEKTOR

- SURFACE PROTEKTOR FILM •
- PP FLOOR PROTEKTOR •
- COVER-IT PROTEKTOR •
- BUBBLE FLOOR PROTEKTOR •

Coverit Floor Protector is a composite foam solution for protection of flooring against possible damages during painting, woodwork, etc. Ensures excellent cushioning with high mechanical strength and low memory retention. It is also customizable into any thickness and width..

Coverit Floor Protector are

- Hassle-free when compared to POP, Rosin Paper, Plastic runners
- Does not absorb paint, oil, grease & cleaning agents.
- Easy to install & Reusable.
- Flexible- Can be cut to fit any space & works well on either side.
- Does not promote growth of bacteria and fungi.
- Protects from scratches and stains.
- Inert to most chemicals.
- Cushioning effect and impact protection against falling objects.

Coverit Floor Protector are used for

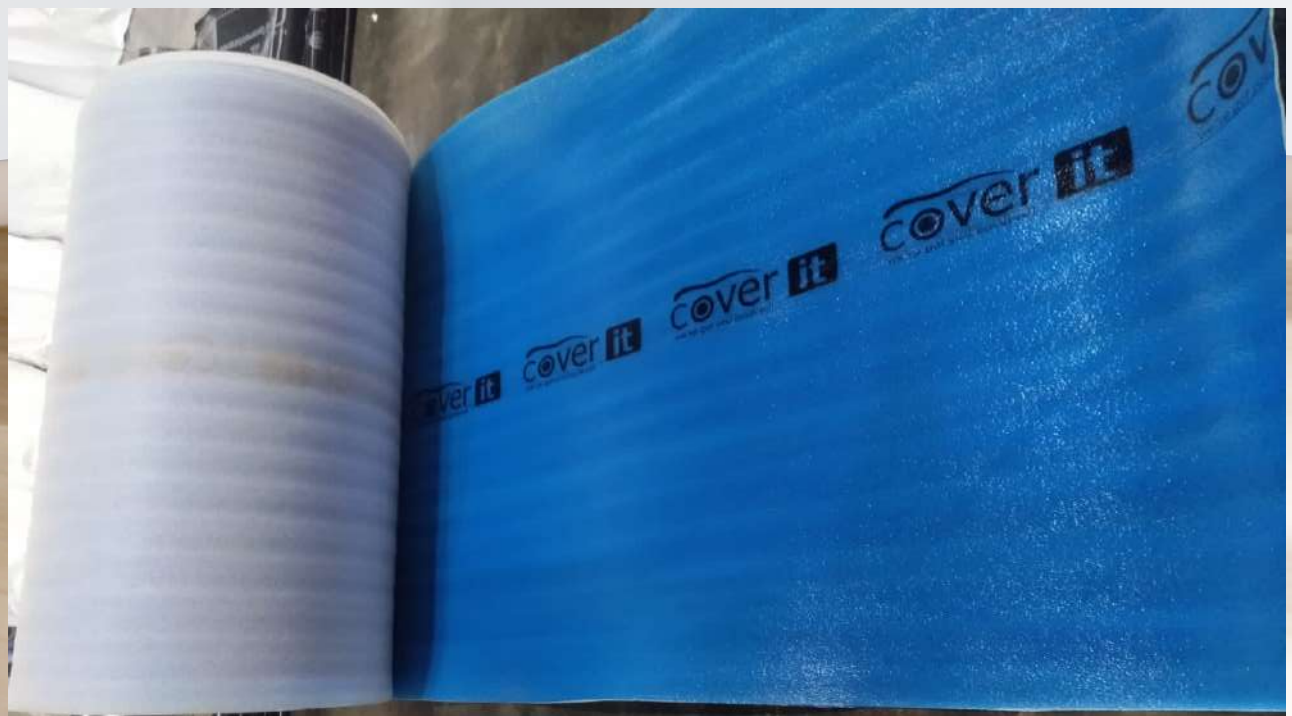

- Glass and other wooden surfaces.
- Floor Protection from Woodwork, Painting and Electrical work.

Coverit Floor Protector - Available in

Width: 1290mm

Thickness: 3mm

Length: 100m

Coverit HDPE Floor Protector is a composite foam made up using high quality HDPE Woven Fabric with High Density EPE Foam. The resulting foam composite has a very high mechanical strength and has excellent tear resistance. This is ideal for places that have high movement and longer work time estimates. It ensures excellent cushioning with low memory retention. It is also customizable into any thickness and width.

Coverit HDPE Floor Protector - Available in

Thickness: 2,3,4,5mm

Width: 1400mm/4'7"

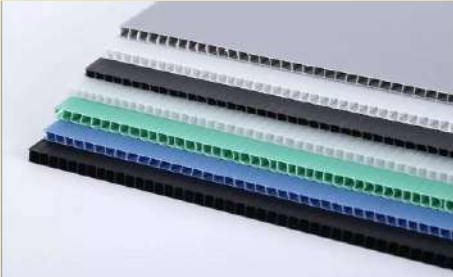

Length: 30m, 50m, 100m

Color: White

Thickness, Length are customizable.

PP Floor Protectors Polypropylene Floor Protector Sheet is widely used in the building and construction industry as a lightweight alternative to masonite for floor, countertop protection, temporary window and door replacement, and temporary clean room applications. It can also easily be cut with a utility knife.

PP Floor Protectors are

- Made from polypropylene plastic making it easily re-cyclable helping our environment.
- Does not absorb paint, oil, grease & cleaning agents.
- Easy to install and Reusable.
- Flexible- Can be cut to fit any space and works well on either side.
- Protects from scratches and stains.
- Water Resistant
- Inert to most chemicals.
- Cushioning effect and impact protection against falling objects.

PP Floor Protectors are used for

- Floor Protection from Woodwork, Painting and Electrical work.

PP Floor Protectors - Available in

Thickness: 2mm, 3mm, 5mm

Size: 6ft x 4ft

Color: Grey, Silver, Blue, Red, Yellow

Sizes and Colors can be customized for bulk orders

Surface Protection Films Multi Surface Protection Film is a durable, self-adhering protective film for hard surfaces, such as tile, marble, granite, vinyl, VCT, laminates. It's not only great for floor protection but it can be used to prevent damage to most counter tops, tubs, sinks, doors and more! Ideal for painting, electrical works.

Surface Protection Films are

- Easy Application: Simply roll out and smooth into place.
- Being self-adhesive, once applied it will stay in place ensuring your surface is constantly protected.
- Does not absorb paint, oil, grease & cleaning agents.
- Waterproof: Stops contamination from spills.
- Protects from scratches and stains.

Surface Protection Films are used for

- Glass and other wooden surfaces.
- Floor Protection from Woodwork, Painting and Electrical work.

Surface Protection Films - Available in

Thickness: 50,100 microns

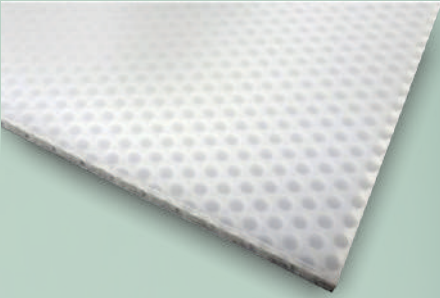

Width: 1ft, 2ft, 4ft

Length: 50, 100 mtrs

Color: Transparent

Air Bubble Floor Protectors are made of creating air pockets in between 3 layers of polymer film. The resulting material has excellent cushioning and wear resistance. A handful of manufacturers can produce upto widths of 2000mm and we are one of them. Since the product is extruded, any length can be produced.

Air Bubble Floor Protectors is

- High tear resistance
- Wide width ensures fewer joints
- Air pockets create ample cushioning
- Smaller length rolls can be produced

Air Bubble Floor Protectors used for

- Floor Protection
- Glass & Wood Covering

Air Bubble Floor Protectors available in:

1m,1.5m,2m Lenth: 30m,50m,100m
